PERSONAL PROJECTS

Blog of Others (Django) - blogofothers.xyz | 🌐

- A blog developed using Django. The main concept is that everyone who is registered to the blog can post.

Chat App (Node.js) - [Heroku](https://heroku.com) | 🌐

- A chat application with rooms using Node.js and Socket.IO library mainly. Developed it while I was learning for Real-Time web technologies.

node-todo-api (Node.js, MongoDB) - | 🌐

- A simple to-do API. Built it using Node.js, MongoDB.

Personal Website (Sass) - geokeloglou.me | 🌐

- My responsive custom personal website for practising, introducing myself, showcase projects and my blog.
